

PRO SERIES 2 PERSON CAPACITY DECAL CHANGES

Pro Series 2 Person Decal Updates.pdf

After extensive testing, all Series 5 Pro Series Lifts are now rated for two occupants. The rating is restricted to the outdoor rating of the machine, and can only be applied indoors. As such, the decals on all Pro Series lifts being produced will now feature updated decals. If an updated decal set is desired for older machines, they can be ordered and replaced as such.

We recommend using a razor blade to carefully remove the old decals, and place the new decals as shown below in the proper locations. To order, visit our online parts portal at https://www.hybridlifts.com/ansi/Parts/Parts_Catalog.htm and order the decals for your Pro Series model.
